Amtrak AUTO TRAIN

Washington-Florida

Take Your Car Along for the Ride

Now You Can Go to Florida and Take Your Car Along for the Ride

*I*nvisibly see why the Amtrak Auto Train is sensible. You're spared many miles of being traffic. And your car comes along for the ride... so local driving is easy and economical.

But it's also train convenient. Auto Train is fun! You can socialize in the lounge. Enjoy entertainment like a feature movie. Or quietly relax in our Dome-Car while eye-level views of the countryside pass by.

The fun starts up even before the train heads out.

*T*wo hours before Auto Train pulls out of the station, you can start meeting vacationers like yourself on board. The lounge is already open so you can purchase drinks and meet new friends.

When dinner time arrives, relax. Reserved seating means there's no wait, no rush. Just ease into a buffet-style dinner... your choice of delightful entrees, vegetables, salad, and desserts. Both your dinner and breakfast are included in the price of your tickets.

Afterwards, there's entertainment. A chance to wind down in the lounge. Or the option of retiring for the night in your Auto Train accommodations.

And anytime throughout your trip, you can enjoy complimentary coffee, tea and snacks.

A Continental-style breakfast welcomes you to the land of citrus trees or Lorton, Virginia (just outside the nation's capital) in the morning.

Soon you're reunited with your car and on your way... the day ahead of you and a refreshing rail vacation behind you.

What's on board for all our travelers? A good night's sleep!

*W*hen night falls, you can sink into the comfort of Auto Train's coach accommodations, with wide reclining seats.

Or you can enjoy the luxury of a one-passenger roomette or a two-passenger bedroom. Both easily convert to a sleeping compartment with a private lavatory and individual temperature controls for maximum comfort.

Our sleeping car attendants will happily shine your shoes, schedule a wake-up call, and bring you a nightcap should you choose to purchase one. And what could be nicer than a complimentary wine-and-cheese buffet upon boarding, and the lovely touch of sweet-tooth bedtime!

Getting there is more than half the fun.

*T*ake Auto Train, and you're happily relaxed when you arrive at your destination. And close to the sights you want to see.

Our Florida station in Sanford is just a half hour from Walt Disney World and EPCOT Center, and less than an hour from the John F. Kennedy Space Center and Daytona Beach.

Our Washington station in Lorton, Virginia, is right off Interstate 66, and just 20 miles from the capital itself, with its monuments, memorials and museums!

Depending on the season, our trains run daily or three times a week. Confirmed space is a must... both for you and your car. Sorry, no pets allowed!

Call Amtrak or your travel agent for all the details. Then, instead of driving yourself crazy take Auto Train to Florida. And take your car along for the ride!
