# Ski Northeast

WINTER 1974-75

## Pick a famous ski spot in Vermont...

## then add an Amtrak trip to break the ice.

Stowe, Bolton Valley, Killington, Pico Peak, Jay Peak, Smuggler's Notch. It's the top of the crop in ski resorts — yours for the taking in a great new group of Amtrak vacations centered in the "Ski State of the East." Amtrak packages range from a brisk one-night stay to an action-packed week-long adventure. And they offer just the accommodations you're after: up-to-date lodges, colorful inns, luxurious condominiums, economical dormitories. Daytime action is up to you: downhill skiing, cross-country touring, a learn-to-ski plan. And apres-ski can be anything you want it to be. You'll find a price that's exactly right. And you'll get the "bonus" that goes with traveling on Amtrak.  
 On an Amtrak vacation you don't have to wait for the fun to begin. Just step aboard your train and join

that carefree crowd headed in the same direction — toward a memorable New England ski holiday. If you go by coach, you'll stretch out in a reclining, extra-spacious seat. Or you might treat yourself to the special convenience of a roomette or bedroom. There's the dining car where excellent food costs less than you might think. And there's "Le Pub" where you can gather with new friends and old acquaintances. This dimly-lit, romantic cocktail lounge car has cozy, comfortable chairs, intimate tables and a bar. Plus a piano and singer on weekends.  
 With a round-trip Amtrak train ride, the fun starts sooner and lasts longer. You'll get extra mileage out of every vacation moment — coming and going on Amtrak.

# Killington & Pico Peak

Two mountains made for exhilarating action. Killington has three base areas and fifty-four trails. Plus the world's longest ski lift — a three-and-a-half-mile gondola tramway stretching upward 4,241 feet to Killington Peak — the highest point reached by an aerial lift in New England.

Pico Peak is called "Vermont's friendliest mountain." There are seven lifts, thirty trails and a 2,000-foot drop. Both mountains have extensive snow-making facilities.
